

Joseph Sanchez

Woodinville, WA 98077

joeychez23@outlook.com

(425)-209-8421

Experienced software engineer with a strong Java, Spring, Python, Javascript, React.js, and AWS background. Skilled in developing backend infrastructure, integrating secure authentication, and contributing to content management systems.

Experience

Software Engineer

Tilosi, Bothell, WA

June 2024 - Current

- Built core simulation systems for Towns and Wilds using C#, .NET 5, WPF, and a 1024x1024 pixel canvas.
- Implemented AI-driven zone systems with behavior trees, procedural generation, and dynamic environment mechanics.

Software Engineer II

Sinclair Broadcast Group, Seattle, WA

August 2023 - June 2024

- Designed and developed interactive ATSC 3.0 broadcast applications with React, Node.js, and Canvas.
- Optimized backend systems with Node.js and SQL/DynamoDB. Provisioned Infrastructure with Terraform and streamlined deployments through CI/CD pipelines.
- Designed and deployed robust AWS Lambda functions that handle user traffic in tandem with the API Gateway.
- Collaborated in an Agile team to diagnose and resolve deep-rooted platform issues, enhancing stability and maintainability.

Software Engineer I

Sinclair Broadcast Group, Seattle, WA

March 2023 - August 2023

- Developed code for a Java Spring data migration service, automating the transfer of millions of SQL records from production to QA/INT environments.
- Debugged and designed features within Sinclair's Storyline CMS using Java, Spring, and SQL. While implementing OOP best practices.

Freight/Receiving Associate

Home Depot, Bothell, WA

December 2025 - Current

- Load and unload trucks, move material from the receiving area throughout the store

Education

Certificate in Full-Stack Development | 2022 - 2023

University of Washington at Seattle, WA

Course Completion in Cloud Architecture | 2022 - 2023

Pluralsight

Certifications in Software Development | 2018 - 2023

Self-Taught

Certifications

- AWS SAA-C03 | AWS Certificated Solutions Architect - Associate | 2023
- AWS CLF-C02 | AWS Certified Cloud Practitioner | 2022
